#### Notes

\* silicone O-Ring gasket provides a weather tight seal

#### Detailed description

Inconspicuous and easily concealed, this low voltage up & accent fixture is constructed of die-cast, copper-free aluminum for strength and reliability. The fully rotatable shroud is fitted with a silicone o-ring gasket to ensure a superior weather-tight seal. A clear, tempered, shock and heat resistant soda-lime glass lens safeguards the lamp and optics.

**Note:** All dimensions and other specifications can change without notice. Please contact Light On Landscape to confirm the availability and current specifications of this luminaire.

**Installation:** Light On Landscape strongly recommend that all luminaires be correctly installed and maintained. Failure to do so will result in the voiding of the manufacturer's warranty and the reduced efficiency, performance and life of the fixture. To eliminate voltage drop, we advise that the recommended UV stabilized cable and run lengths are used, along with soldered joints, heat shrink connectors and quality lamps.
