

LOL0038

Model No	LOL0038
Application	Accent
Description	Flexible BBQ Light
Lamp	LED MR16
Wattage	4.5W
Voltage	12V or 24V
Beam	60°
Finish	Black powdercoat
Mounting	Surface Mount
Fasteners	Stainless steel screws
IP	TBA
Weight	TBA

Dimensions	94.5 x 114.3 x 995*
mm	L x W x H

Notes

- * fully extended approx
- ** Optional hardwired on/off switch available.

Detailed description

Perfect for illuminating food on the BBQ, this handy low voltage flexible stem deck light fixture is constructed of heavy gauge extruded aluminum. The stem and flex arm is constructed of heavy gauge brass incased in a black UV resistant PVC shrink cover for superior performance. The CNC machined solid aluminum mounting canopy features an On/Off push button control protected by a rubber boot cover. A clear, tempered, shock and heat resistant soda-lime glass lens safeguards the lamp and optics. A black polyester powder-coated finish is applied to both the housing and mounting canopy.

Note: All dimensions and other specifications can change without notice. Please contact Light On Landscape to confirm the availability and current specifications of this luminaire.

Installation: Light On Landscape strongly recommend that all luminaires be correctly installed and maintained. Failure to do so will result in the voiding of the manufacturer's warranty and the reduced efficiency, performance and life of the fixture. To eliminate voltage drop, we advise that the recommended UV stabilized cable and run lengths are used, along with soldered joints, heat shrink connectors and quality lamps.
