<b>Notes</b>

#### Detailed description

This robust luminaire is designed to be mounted on walls and provide directional light for pathways and structural elements of a building. It comes in either copper, aluminium or stainless steel 316 grade. It has a fully adjustable head allowing 360 degree rotation and 0 - 90 degree elevation. Buitin transformer option available.

**Note:** All dimensions and other specifications can change without notice. Please contact Light On Landscape to confirm the availability and current specifications of this luminaire.

**Installation:** Light On Landscape strongly recommend that all luminaires be correctly installed and maintained. Failure to do so will result in the voiding of the manufacturer's warranty and the reduced efficiency, performance and life of the fixture. To elimtate voltage drop, we advise that the recommended UV stabilized cable and run lengths are used, along with soldered joins, heat shrink connectors and quality lamps.

**Transformer  
in base option**
